

A library has been set up at the Food Shelf by ***READ TO FEED THE MIND***. Families are encouraged to take one book per child per visit to the Food Shelf. The need, and the interest in these books is phenomenal. However, **WE NEED NEW AND GENTLY USED BOOKS** for this ongoing distribution.

Families without enough money for food are unlikely to be purchasing books for their children. We can help. Children who have books in their homes are more likely to graduate from high school. Help by donating books and help our children's need to ***Read to Feed the Mind***.

Our school will be collecting new and very gently used children's books during February. Books may be placed in the bins marked **READ TO FEED THE MIND**.

*Drop by drop, oceans are filled. Word by word, minds are fed.*

Visit our website to read research about the importance of reading at home, the correlation between poverty and literacy, and general updates about the organization, Read To Feed the Mind.
